1. Tell us about your Mumbai Tarot Tour 2.0

Pooja Khera: The Mumbai Tarot tour is my opportunity to meet my clients in Mumbai who I'm very grateful to have for years now. This is also a chance for me to meet new people, new clients and each time the city opens its heart to me with so much love and affection. It is a chance for clients to meet me in person and get answers and clarity to anything in life that may be holding them back to achieve their dreams and goals.

2. What can one expect from these one on one tarot sessions?

Pooja Khera: My one on one sessions are quite detailed and insightful. The intent is not to just make a prediction (as that's the easy part) but to lay out a map in front of my clients that gives them a detailed understanding of the situation. So when you are in these sessions with me, get ready to uncover the truth including that which may be hidden but still defining your circumstances.

3. How is it different from your previous Tarot Tour?

Pooja Khera: This time I'm also taking in person astrology consultations whereas the last time I could only take tarot consultations. For those of your readers, who are not aware, I'm a masters in astrology as well and practice both indian and western astrology.

4. What would be the next tour destination?

Pooja Khera: My dream list is quite long but Bangalore and Pune both are on priority.

5. Why should one come to your tarot table this season?

Pooja Khera: You know how sometimes in life we have everything but the truth! So if truth is what you are looking for, if clarity is what is missing and guidance is what you seek in any area of your life- be it relationships, finance, health, career, family or anything else, then you should meet me on my tarot table for a session. Then sometimes despite your best efforts, the results are eluded because believe it or not, the universe is at work, there are factors that hold you behind and then if you know them, you can create a better reality for yourself. So come see me on my tarot table for an experience that can be truly liberating yet magikal!

6. What's in store in the near future for your brand 'ZenquestByPooja'?

Pooja Khera: Hahahaha, well I have so many plans for the future of the brand that sometimes just like any other entrepreneur, my own dreams scare me. But I want spirituality and mediums like tarot, astrology and all else I specialise in to be accessible to everyone. And technology in today's age is the enabler. So expanding the Zenquestbypooja universe with technology, a more comprehensive website that will eventually lead to a very user friendly yet unique app is what I really want to achieve soon. We will also be coming up with an online store catering to a huge segment of people who believe in crystals, given I'm an internationally certified crystal healer as well. These are the ones I think I can speak about for now, as the rest will reveal themselves soon, hopefully!!!
